

Behind the Power is The DNA of tech.™

The DNA of tech.™

AVNET ABACUS

IHLP® power inductors deliver high efficiency, low direct current resistance (DCR), and low core loss over a wide range of operating frequencies. Compared to conventional ferrite and through-hole technologies, the devices are offered in a more expansive range of space-saving, low profile packages.

Get to know our IHLP® inductors for a wide range of industrial applications ... supported by the IHLP® Inductor Loss Calculator Tool
