

## REACH DECLARATION

*Regulation 1907/2006 (EC) of European Parliament and of the Council of 18 December 2006, and further implementation, concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.*

### **ITALCOPPIE SENSORI S.r.l.**

#### DECLARES THAT ALL SUPPLIED PRODUCTS

1. Are "articles" (as defined in Title I, Chapter 2, Art. 3, Point 3)
2. Are conform to restrictions (described at Title VIII) about manufacturing, marketing and use of certain substances, mixtures and articles (Annex XVII).
3. Are not generally assembled with components that contain the substances in the Candidate List of European Chemicals Agency (ECHA) or the substances listed in Annex XIV ("List of substances subject to authorisation") in a whole quantity higher than 1 ton per year or in a concentration upper than 0,1% in weight/weight. (Title II, chapter 1, art. 7, point 1 and 2)

Candidate List table at website: <https://echa.europa.eu/candidate-list-table>

However, some types of articles are formed by components or packaging materials that may contain some of these substances in a concentration above 0,1% in weight/weight.

ITALCOPPIE SENSORI S.r.l. guarantees that the above substances are not spontaneously released by the articles, which in normal or reasonably foreseeable conditions of use are not hazardous for people and environment. The table below indicates the substances with the proper informations.

Substance Name	CAS code	Percentage contained in homogenous material
Lead (Pb)	7439-92-1	>0,1% - <4%
Components made by copper alloys containing Lead. <i>ROHS exemption 6 c)</i>		

Substance Name	CAS code	Percentage contained in homogenous material
Lead (Pb)	7439-92-1	>0,1% - <0,4%
Components made by aluminium alloys containing Lead. <i>ROHS exemption 6 b)</i>		

Substance Name	CAS code	Percentage contained in homogenous material
Diazene-1,2-dicarboxamide (C,C'-azodi(formamide)) (ADCA)	123-77-3	>0,1% - <1%
Only in some particular steam tubes used for coffee machines. Presence of ADCA is reported but not assured, because it is completely removed during manufacturing of the homogeneous material which contain it. Anyway, possible residuals can be released only at a temperature higher than 200 °C and it is not possible any sponaneous release at a lower temperature.		

Substance Name	CAS code	Percentage contained in homogenous material
Dodecamethylcyclohexasiloxane (D6)	540-97-6	>1% - <1,5%
Octamethylcyclotetrasiloxane (D4)	556-67-2	>0,1% - <1%
Decamethylcyclopentasiloxane (D5)	541-02-6	>0,1% - <0,8%
Few types of silicone rubber insulated cables, that can contain the above impurities, which are monomeric bases for silicone polymers.		

Substance Name	CAS code	Percentage contained in homogenous material
Octamethylcyclotetrasiloxane (D4)	556-67-2	>0,1% - <1%
Few types of silicone rubber gaskets, that can contain the above impurity, which is a monomeric base for silicone polymers.		

Substance Name	CAS code	Percentage contained in homogenous material
2-ethylhexyl 10-ethyl-4,4-dioctyl7-oxo-8-oxa-3,5-dithia-4-stannatetradecanoate (DOTE)	15571-58-1	>0,1%
Plastic protection net used in packaging for particular articles. Substance in included in the polymerical matrix and it is not spontaneously released.		

Substance Name	CAS code	Percentage contained in homogenous material
Alkanes, C14-17, chloro	85535-85-9	>1%
Few types of PVC insulated cables, that can contain the above impurities.		

Please notice that ITALCOPPIE SENSORI S.r.l, as a downstream user:

- does not produce any substance or mixture and gathers any informations from its Suppliers;
- any measures required by the Regulation are taken with its Suppliers, in order to guarantee the continuity of supply for customers and safety for operators.

The present declaration is released at best of our knowledge and it is being updated when significative changes or new informations are present.
