Supplier & Technology Portfolio

AVNET

As a leading global technology distributor and solutions provider, Avnet has served customers' evolving needs for an entire century. We support customers at each stage of a product's lifecycle, from idea to design and from prototype to production. Our unique position at the center of the technology value chain enables us to accelerate the design and supply stages of product development so customers can realize revenue faster. Decade after decade, Avnet helps its customers and suppliers around the world realize the transformative possibilities of technology. Learn more about Avnet at www.avnet.com/apac.

AT AVNET, WE HELP YOU REACH FURTHER

- Support customers' needs through offices in more than 50 locations in Asia
- One-stop shop for semiconductors and IP&E components from over 400 franchise line card
- Expedite time-to-market for customers through technical support and design services
- Optimize delivery support through world-class end-to-end supply chain services
- Provide ease of search and purchase through sophisticated eCommerce platform

Our Partners

Avnet distributes in excess of 400 product lines of semiconductors, interconnect, passive and electromechanical (IP&E) componen from world's leading electronic component suppliers. Offering one of the most comprehensive line cards in the distribution indu together with value-added design and supply chain services, Avnet enables a superior one-stop ICT experience and cost-effective solutions to cater to customers' different product needs.
