

## **Declaration of REACH and POP Conformity**

July 12, 2022

To minimize the environmental impact and undertake more responsibilities for the earth we live, Lifud Technology Co., Ltd. (hereinafter referred as “Lifud”) confirms based on the feedback from its suppliers that up to now all the products provided by Lifud and its subsidiaries (including packaging materials and other accessories) comply with the restrictions of Directive (EC)1907/2006 enacted by EU Legislation on Substances of Very High Concern (SVHC). The full name of this Directive is “Registration, Evaluation, Authorization and Restriction of Chemicals” and the short one is “REACH”. Meanwhile, they comply with the restrictions of Directive 2019/1021 enacted by EU Legislation as well on persistent organic pollutants. The full name of this Directive is “Persistent Organic Pollutants Regulation” and the short one is “POP”.

### **Content of Conformity**

For more information about SVHC candidate list, please check Pages 2 to 17.  
The concentration of lead (Pb) [CAS # 7439-92-1; EC # 231-100-4] in some of our components is greater than 0.1% w/w, but it can meet the exemptions of RoHS 2.0:

6(a) Lead, as an alloying element in machined and galvanized steels, its content cannot exceed 0.35%.

6(b) Lead, as an alloying element in aluminium, its content cannot exceed 0.4%.

6(c) Lead content in copper alloy cannot exceed 4% by weight.

7(a) Lead in solders at high melting temperature (i.e. lead content in lead-based alloy is 85% or above).

7(c)-I Lead in glass or ceramic (not insulated ceramic capacitor) contained in electrical or electronic components, including piezoelectric devices, glass or ceramic matrix compounds.

7(c)-II Lead in insulated ceramic capacitors rated at 125VAC or 250VAC or above.

Lead in solders that make a viable electrical connection between a semiconductor core and the carrier by means of an IC short circuit chip.

### **Lifud Policy**

Lifud will constantly review the additional and updated information in ECHA “Candidate List” and take action in accordance with REACH. Although it is of extremely small probability that the SVHC content in Lifud products exceeds 1000 ppm by weight. If so, Lifud will inform the competent authorities and recipients in accordance with REACH. Meanwhile, Lifud will go to the extra mile to update its product design, eliminating SVHC from its products.

Company Name (seal): Lifud Technology Co., Ltd.

Name and Position of Responsible Person: Qidong, Nie/QC Manager

Signature of Responsible Person:
