

AVNET<sup>®</sup> ABACUS

Avnet Abacus  
supply chain solutions

# Driving value throughout your solution

The increasingly interconnected nature of many electronic devices, coupled with the speed of innovation cycles and pressure to get new products to market faster, raises significant challenges for today's electronics manufacturers.

Managing these challenges requires a supply chain that is **agile, dependable, resilient and optimised from end-to-end**.

Get the supply chain right and you'll benefit from **enhanced customer service, growth, reduced operating costs and better financial standing**.

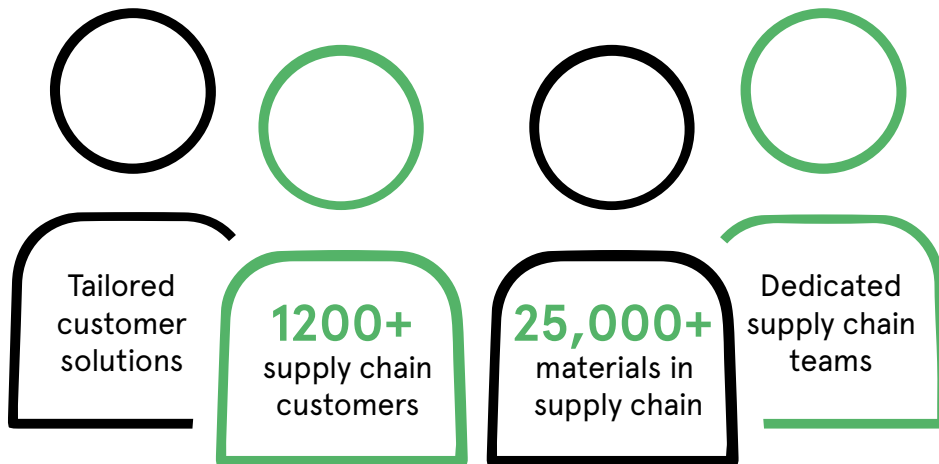

## CUSTOMISED SOLUTIONS TO BENEFIT YOUR CUSTOMERS

Partnering with Avnet Abacus can offer you customised supply chain solutions where no detail is left to chance. You'll reach your goals in a profitable manner by having the right mix of products in place where and when you need them.

Avnet Abacus has made a science of supply chain solutions. Our proven method includes:

- upfront assessment and planning to prescribe the solution that fits best for you
- disciplined inventory management and warehousing to ensure a consistent flow of materials
- multiple models for supporting your end-to-end solution to connect your products to your customers.

## SCALE AND SCOPE TO CONNECT THE SUPPLY CHAIN

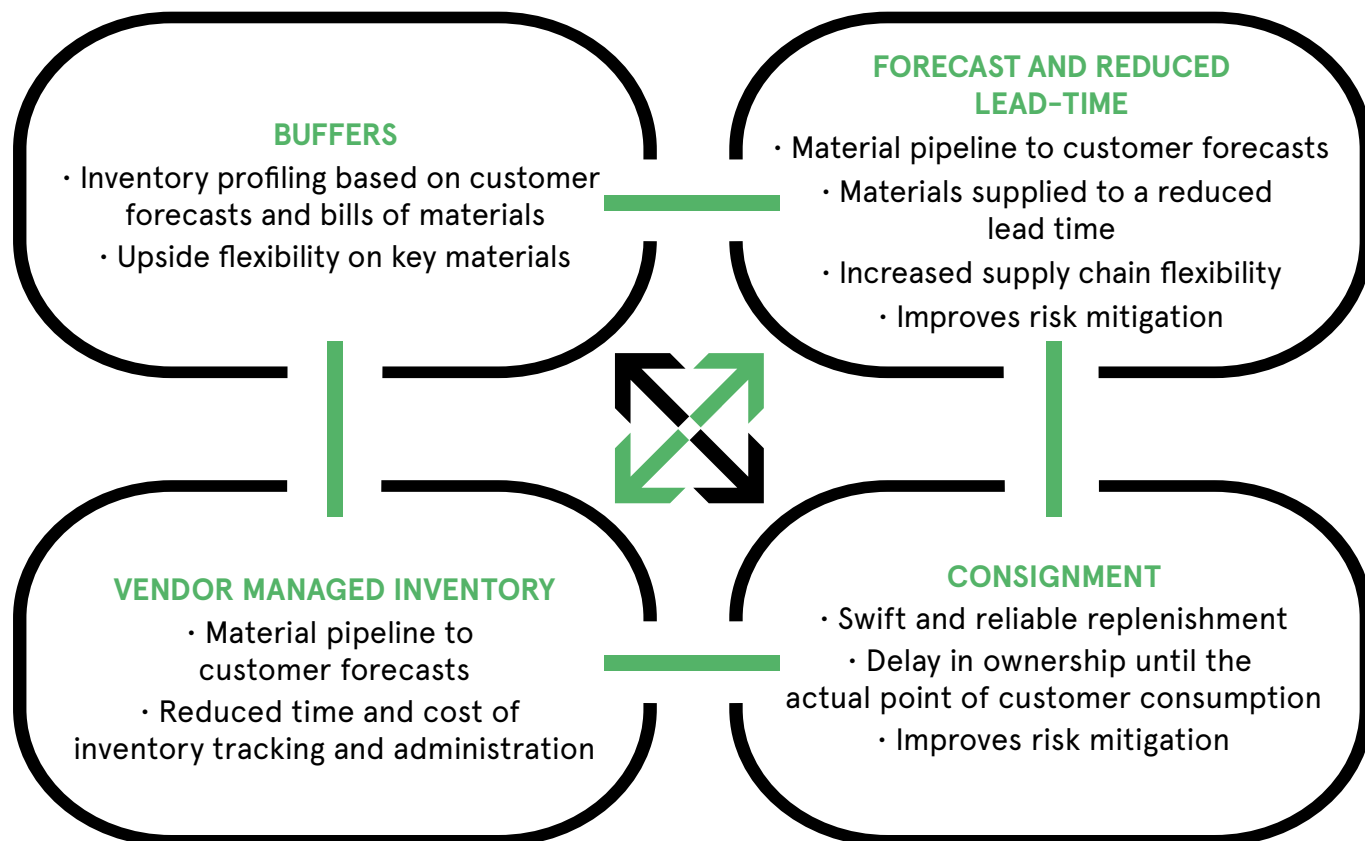

### OUR CUSTOMISED SOLUTIONS OFFER:

- increased flexibility and visibility
- reduced risk
- reduced inventory
- improved working capital
- reduced total cost to serve
- improved end-to-end performance.

# A flexible and bespoke supply chain offering

## OUR SUPPLY CHAIN MODELS FOR CUSTOMISED SOLUTIONS

## OUR SUPPLY CHAIN EXPERTS

### Supply chain specialists

- Design the supply chain model in collaboration with the customer
- Define and document the processes and the solution
- Project manage implementation
- Provide technical support on linking through B2B

### Regional supply chain analysts

- Execute the agreed programs
- Provide customer support on pipeline issues and resolution
- Deliver material analysis, Supply Chain Analytics and Key Performance Indicators
