

Press release

EBV Elektronik to showcase key areas of market sector knowhow at embedded world 2022

12 workstation areas cover all the key applications grouped under the theme of 'Passion Connects!'

Poing, Germany, 2nd June 2022 – EBV Elektronik, an Avnet company (NASDAQ: AVT), will exhibit at embedded world, the leading trade fair for the embedded community, from 21 – 23 June 2022 in Nuremberg, Germany.

The distributor is using the event to demonstrate its expertise across a dozen dedicated workstations that integrate content from a total of 19 different suppliers and partners.

The workstations on the stand are brought together under the umbrella of the theme for the show – 'Passion Connects!' – and range from AI to the IoT; from analog and power to sensors and processing; and from the technologies needed for advanced solutions in industrial facilities and smart cities to those deployed in the home.

The 12 application-sector EBV workstations on the stand will include:

- Passion Connects
- IoT
- Artificial Intelligence
- City Infrastructure
- Industrial, Scientific and Medical
- Automotive and Aerospace
- Light, Home and Building
- Smart Sensing and Connectivity
- Analog and Power
- High-End Processing
- Security and Identification
- Embedded – via Avnet Embedded

Visitors at the EBV stand at **Hall 3A Booth 125** will be able to discuss their design challenges with technical experts from across the EBV Elektronik portfolio of products and technologies.

###

About EBV Elektronik

EBV Elektronik, an Avnet (NASDAQ:AVT) company, was founded in 1969 and is the leading specialist in European semiconductor distribution. EBV maintains its successful strategy of personal commitment to customers and excellent services. 240 Technical Sales Specialists provide a strong focus on a selected group of long-term manufacturing partners. 120 continuously trained Application Specialists offer extensive application know-how and design expertise. With the EBVchips Program, EBV, together with its customers, defines and develops new semiconductor products. Targeted

customers in selected growth markets will be supported by the Vertical Sales Segments. Warehouse operations, complete logistics solutions and value-added services such as programming, taping & reeling and laser marking are fulfilled by Avnet Logistics, EBV's logistical backbone and Europe's largest service centre. EBV operates from 65 offices in 29 countries throughout EMEA (Europe – Middle East – Africa). For more information about EBV Elektronik, please visit www.ebv.com.

About Avnet

As a leading global technology distributor and solutions provider, Avnet has served customers' evolving needs for an entire century. We support customers at each stage of a product's lifecycle, from idea to design and from prototype to production. Our unique position at the center of the technology value chain enables us to accelerate the design and supply stages of product development so customers can realize revenue faster. Decade after decade, Avnet helps its customers and suppliers around the world realize the transformative possibilities of technology. Learn more about Avnet at www.avnet.com.
