

# REFERENCE DESIGN

March 25, 2025

---

## Reference Design:

ZUBoard – Boot Linux from eMMC

## Introduction:

This project provides instructions to help you quickly get up and running with booting Linux from the eMMC Flash on the DP-eMMC HSIO add-on module for the ZUBoard.

## Webpage:

<https://www.hackster.io/tom-curran/zuboard-boot-linux-from-emmc-5d9447>

## Additional Support:

For additional support, please review the discussions and post your questions in the ZUBoard Development Kit Forum located here: <http://avnet.me/ZUBoard-1CG-forum>.

Alternatively, you can also reach out to your local Avnet Field Application Engineer (FAE) for support.
